

```
PS C:\Users\sures\OneDrive\Documents\FS_LAB\lab_obv\Task_5\Q2> node fileManagement.js  
=== Node.js File System Manager ===
```

```
Enter the filename to create (e.g., test.txt): notes.txt  
Enter initial content to write into the file: Hello! This is line 1 of the initial file.  
Enter additional content to append: This is line 2 appended dynamically via Node.js fs.
```

```
--- Executing File System Operations ---
```

```
1. [SUCCESS] File "notes.txt" created and initial content written.  
2. [READ INITIAL] Contents of "notes.txt":  
   --> "Hello! This is line 1 of the initial file."
```

```
3. [SUCCESS] Additional content appended to "notes.txt".  
4. [READ FINAL] Updated contents of "notes.txt":
```

```
-----  
Hello! This is line 1 of the initial file.  
This is line 2 appended dynamically via Node.js fs.  
-----
```
